35. SWOC analysis of the department and future plans:

• Strengths:

Dedicated and competent faculty includes professional Chartered Accountants. Inspiring, focused and result oriented leadership. Consistently good academic performance of students in college and University exams.

• Weakness:

Student teacher ratio is skewed and makes it difficult to reach out to very diverse student community.

• Opportunities:

There are ample opportunity for improvement and innovations in the teaching learning process by organizing guest lectures and student seminars.

• Challenges:

To retain good students who may consider shifting to self-financing courses like BBI, BMS and to encourage students to continue with their studies and not drop out to pursue professional courses like C.A. To devise programme/ activities both inside and outside the classroom to equip the students to face the current demands of the industry and thereby to help make the transition from classroom to workplace smoother.

• Future Plans:

To devise student focused activities to enhance their employability quotient. To consider introducing a certificate course in forensic accounting, computerized accounting and investment portfolio analysis.
