35. SWOC analysis of the department and future plans:

• Strengths:

Sincere, hard working, student centric and harmonious team of faculty members.

• Weakness:

The pass percentage of students is good but quality of results needs improvement.

• Opportunities:

There is a lot of scope to undertake research projects by the faculty and increase number of publications. Widen the scope of corporate collaborations.

• Challenges:

To motivate the students who come from economically challenged backgrounds to improve their results and pursue research work. To motivate girl students who find it a challenge to find time for studies from their hectic work schedules at home. To motivate students who come from vernacular medium of instruction to improve their command over English. Since many students are employed it is a challenge to engage them in co and extra-curricular activities.

• Future Plans:

To strengthen faculty research.
